Oswald's leaflet

Harold Weisberg

Paul Hoch sent me a copy of FBI Exhibit D-25 that has a note at the bottom reading "97 - 74. 1A5 Rec 8/20/63 from Jesse Core".

Jesse has give me a Xeroxed copy made from his original, which he had earlier crumpled in anger and tossed at Oswald.

The FBI copy has something I can not decipher written in the upper right corner. This is not on Core's original, which I have examined. On his original, he has lined around the stamped address. This is not on D-25. Of course, I do not know when Jess did this, and it is possible he did after the FBI copy was made. However, his copy does have this legend in the upper left: "Demonstration before ITM". That is not on the FBI copy, and it could have been added after that copy was made.

I will ask him if he recalls when he added his marks.
